

Real-World Experience, Measurable Results

Dunn Enterprises offers more than 25 years of direct business experience to assist senior executives and their companies clarify, communicate, and achieve short and long-term business goals. We understand the challenges and complexities of growing a brand and a business in a way that's financially sound, sustainable, and holistic; from strategy to execution, from people to systems, from product to customer, from plan to profits.

Brands with the ability to identify and deliver what customers want will prosper. Increasingly, the most powerful brands deliver more than just a product or even an image; they consistently deliver a coherent customer experience. Competition is so intense, the sheer number of choices for customers is so awesome, that one of the only ways to differentiate is through your employees. We believe that leaders must be able to turn their people into a competitive advantage.

To create opportunity and wealth for your business, we focus on "results through people," character-driven leadership, operations excellence, and measuring what matters. We have particular expertise in the hospitality, retailing, food service, and beverage segments; in branding, franchising, supply chain, inspiring employees, and executive coaching.

We have extensive experience working with one of the World's #1 Brands, with a proven track record of adapting to market challenges and meeting milestones. We will help you deliver promised results to customers by focusing on their needs, with a deep understanding of the business tactics required. We will work with your executive team to focus and communicate your mission, and build your Brand through innovative marketing and sales strategies, aggressive retailing, anticipating market trends, and leveraging your People as a competitive advantage. We can also help create and facilitate alliances to take your company in exciting new directions. We focus on your needs, and offer a profound understanding of the business tactics required.
